

2nd International Symposium

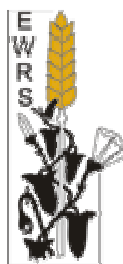

„Intractable Weeds and Plant Invaders“

*J.J. Strossmayer University, Faculty of Agriculture, Osijek, Croatia
September 14 to 18 2008.*

<http://www.tera.hr/ewrs-osijek-2008>

The primary objectives of the Symposium are: (1) to foster communication among researcher and practitioners involved in the many disciplines encompassed by invasive plants and weed science, (2) to provide a forum for the presentation and discussion of recent and ongoing research in field of invasive plants and weed science (3) to encourage new investigators (especially students) in weed science and invasive plants

Organizers:

EWRS – European Weed Research Society

Working groups: Invasive Plants, Biological Control of Weeds and Weed Management in Arid and Semi-arid
Climates

Local organizers:

J.J.Strossmayer University: Faculty of Agriculture – Department of Plant Protection;
TERA- Technology Development Center

A wide variety of topics will be covered during the symposium. The scientific program is divided into the following main areas:

Invasive Plants: biology, ecology, genetics

Impact: agriculture, biodiversity, human health, environmental hygiene, environmental and economic aspect, regulatory framework

Control measures: chemical control, biological control, mechanical control, control of invasive weeds in arid and semiarid environment, herbicide resistant (invasive) plants,

Methods: standardization, quality control, statistics, techniques and information technology

Important Dates:

Deadline for Title Submission:

March 15, 2008

Deadline for Paper Submission:

May 1, 2008

Deadline for Early Registration Fee:

June 30, 2008

General Information:

J.J. Strossmayer University is located in the city of Osijek, in Northeastern part of the Republic of Croatia, at a convenient distance from Zagreb. There is a good train or bus connection from Zagreb International Airport. The town offers a great variety of shops, restaurants and entertainment. In September Osijek is generally mild with daytime average temperatures around 21⁰C (70s ⁰F)

Papers for Presentation and Posters:

The deadline for abstract submission is May 1, 2008. Papers should be sent by e-mail to: Edita Stefanic, estefanic@pfos.hr and should be structured as follows:

- 1: TITLE (all capital letters)
- 2: AUTHORS: first name i full, last name (presenting author underlined)
- 3: AFFILIATION
- 4: TEXT

Accepted formats: Microsoft Word, Notepad, Wordpad. Abstract should not exceed 300 words.

All posters will be presented in the poster discussion session.

Symposium website:

All information about scientific programme, venue, accomodation, online registration, subsidy to young scientists, travel, social events and tourist information will be available at the official website:
